

Chengqi Shi

Undergraduate Student

Embodied Intelligence & Humanoid Robotics

Xi'an Jiaotong University | Xi'an / Shanghai, China

cqshi@stu.xjtu.edu.cn | Homepage | GitHub | Google Scholar

PROFILE

Computer Science undergraduate in XJTU's Young Gifted Class, researching embodied intelligence and humanoid robotics, with interests in VLA models, world models, and reinforcement learning.

EDUCATION

Xi'an Jiaotong University — Sept. 2025 - Present

B.S. in Computer Science and Technology

Xi'an Jiaotong University — Sept. 2023 - July 2025

Young Gifted Class (Preparatory Phase)

PUBLICATIONS

SP-HLM: Sparse-Pose-Driven Motion Generation and Whole-Body Control for Humanoid Loco-Manipulation

Zhaohui Yang*, Quanbao Lin*, **Chengqi Shi***, Zhenglang Weng, Jicheng Lin, Boyu Chen, Tengjie Zhu, Guanzhu Ren, Jiahao Xu, Yang Feng, Xiaokang Yang, Yao Mu.

arXiv:2610.30044, Under Review, Oct. 2026. * Equal contribution. Paper | Project

Sparse body poses and a learned motion prior connect VLA prediction, real-time motion generation, and whole-body humanoid control.

FluxVLA Engine: A One-Stop VLA Engineering Platform for Embodied Intelligence

Yinhao Li, Weixin Mao, Zihan Lan, et al., **Chengqi Shi**, Hua Chen.

arXiv:2609.17210, Sept. 2026. Paper | Code

An open platform unifying embodied-policy training, simulation evaluation, human-in-the-loop correction, and real-robot deployment.

RESEARCH & EXPERIENCE

LimX Dynamics — Aug. 2026 - Present

Embodied Intelligence Algorithm Intern

Shanghai Jiao Tong University, ScaleLab — Feb. 2026 - Present

Research Intern | *Advisor: Prof. Yao Mu*

Research on humanoid whole-body mobile manipulation and world models.

XJTU, Institute of Artificial Intelligence and Robotics — Apr. 2025 - Mar. 2026

Research Intern | Reinforcement learning and image generation models.

HONORS & AWARDS

Third-Class Scholarship, Xi'an Jiaotong University — Oct. 2026

Outstanding Student, Xi'an Jiaotong University — Oct. 2026

National Second Prize, RoboCup National Competition — Oct. 2026

National First Prize, RoboCup Special Competition — Aug. 2026

Team Captain, 3D Object Recognition.

Honorable Mention, Mathematical Contest in Modeling — May 2026

National First Prize, China Undergraduate Physics Experiment Competition — Nov. 2025

Provincial Third Prize, Lanqiao Cup — May 2025

SKILLS

Programming: Python, C/C++, JavaScript/HTML/CSS, Bash, MATLAB

Tools: PyTorch, ROS2, OpenCV, YOLO, Git, LaTeX; Ubuntu/Linux, Orange Pi

Languages: Chinese (native), English (CET-6)
